

SEEBN proudly presents

Novi Sad in European Union

EXECOM is a software engineering company and a provider of IT services situated in Novi Sad, Vojvodina and exports services to its clients all over Europe. Recently, the company gained another approval of its work. In March release of reputable magazine of European Union 'the PPP Journal' (<http://www.publicservice.co.uk/>), the company was presented as one of the key players on southeast European market of software solutions & IT services with unique business approach. The publication emphasizes the significance of systems that EXECOM developed for on-line passport production using advanced technology and efficient job search and match system, used by Netherlands and Swiss institutions. The importance of this publication is crucial for company as EXECOM is: high quality IT services exporter with about 50 employees and tendency for constant growth.

Competency areas the company has specialized in are: equipment & industry automation, telecommunications, finance and web business solutions. Also, EXECOM is an ISO 9001:2000 certified company and Microsoft Gold Certified Partner.

'From our perspective, the overall situation wasn't promising when we were in the process of starting business 14 years ago: the country under embargo, visa caused problems, undeveloped infrastructure... but today, thanks to unlimited faith in what we do, EXECOM is one of the biggest exporters of IT services from Serbia, with branch offices in the Netherlands and Czech Republic.' – says Managing Partner and one of the company founders Mr. Petar Ulic.

EXECOM's competitive values are best seen in the company organization, efficient and transparent project management and educated staff. Company's business philosophy puts a strategic partnership with clients before other short-term goals where communication represents one of the preconditions for efficient cooperation: EXECOM practices frequent meetings, working on clients' site and regular reporting. The most important of all is that the clients are satisfied with the quality of provided services and continue to contract with the company. Here are just a few of them: Chess ibusiness (the Netherlands), Vital Scientific (the Netherlands), Vizada (ex. France Telecom Mobile Satellite Communications) / (the Netherlands), Care Software Solutions (the Netherlands), IT Peak Networks (Germany), Sitronics Telecom Solutions (ex. Strom Telecom) / (Czech Republic).
